

Better Than Gold

The Money Machines Will Use

Bitcoin survived four market cycles. Now AI agents are entering. Better Than Gold tells the complete story and what comes next.

Part history, part analysis, part survival guide for the next cycle.

Key Facts

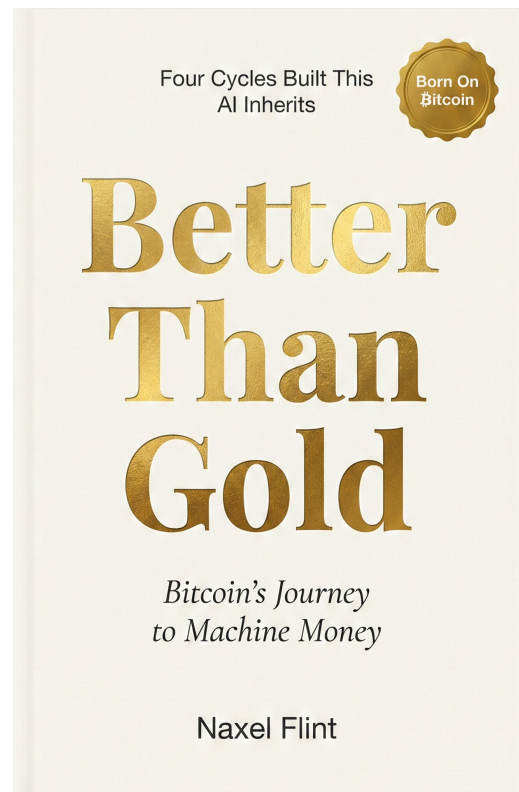

- 10 chapters across 4 market cycles
- Inscribed on Uncommon Alpha satoshis
- 18 months in the making
- First book written on Bitcoin, not ported to it

What You'll Learn

- ✓ Bitcoin's evolution through four market cycles
- ✓ From early days to institutional adoption
- ✓ DeFi, NFTs, Ordinals, memecoins
- ✓ Why AI needs permissionless money

Permanent Record

Paper burns. Servers shut down. Bitcoin doesn't.
Every chapter inscribed on the blockchain via Ordinals.
The first book written on Bitcoin, not ported to it.
